Village : Qadima

Sub-District : Tulkarm.

State Domain No.	Book No.	Folio No.	Block No.	Parcel No.	Area Duns.Sq.m.	Category and Description	Recommendations of State Domain Inspection Committee
GP/5/30(2)	103	10	8038	46	54.370	Miri - Sandy Waste land.	
A petition dated 1st December, 1939, was submitted to Chief Secretary by A. Kinross, D. Bargheim and E. Veissas of 34, Borchov Str. Tel-Aviv, in which they offered to lease the above mentioned property for the plantation of Mushrooms. The petition was returned to them with directions to submit it through Commissioner of Lands and Surveys. This they did. A copy of the application was forwarded by Commissioner of Lands and Surveys to Assistant District Commissioner, Tulkarm, for observations, who replied that the land would be more suitable for bee keeping and poultry. In another letter the Asst. District Commissioner suggested that the best use to which the land could be put is afforestation. Another letter was received in August, 1940, from a certain Ahava Pechovsky of Qadima in which she undertook to afforest the land with Eucalyptus trees if a lease was granted to her. She explained that the land adjoins her land and that it cannot be used for any purpose other than afforestation. A reply was sent to her to the effect that her application will be considered together with others if and when Government decides to dispose of the land. Mr. E. Veissas one of the last three applicants followed up his application in December 1940 and was accorded an interview. He made a good impression and was prepared to purchase the land at £P.5 or 5 per dunum or to lease it for a minimum term of 3 years.							To be permanently allocated to the Forestry Department for use as a nursery and for growing eucalyptus trees in connection with an adjacent forest reserve. This will enable land at present rented for a nursery to be released. <i>/farming</i>

These parcels were originally known as Basset ash Sheikh Muhammad and recorded under D/Tul/32. They are now occupied by Wadi Hawarith Arabs North. They were under the control of the Development Officer for the Settlement of the Wadi Hawarith Arabs until 1939, when they were taken over by this Department. No final settlement has yet been reached. Most probably they will be treated as those lands now occupied by Wadi Hawarith Arabs South, (GP/5/54(6), (7) and (8)).							Chairman <u>(Sgd.) E. R. per year. The draft agreement was sent to District Commissioner, Nablus, to enquire whether the tribe will agree to its terms. District Commissioner replied that the tribe was prepared to enter into a lease agreement for 3 years at a nominal rent of L.P. 2,500 mile subject to certain amendments with a special condition that the agreement is made subject to renewal until the landlord is able to find for the tenants an alternative site to settlement upon. The Acting District Commissioner expressed his sympathies with the views of the tribe adding that the mere assurance from Government that it is extremely unlikely to dispossess the tribe of the land is not sufficient, but that some binding arrangement should be made. The Director of Land Settlement informed District Commissioner that the landlord is prepared to put a special clause by considering the tenants as statutory tenants within the meaning of the cultivators (Protective) Ordinance. From further correspondence it was suggested to examine the draft village legislation with regard to juristic personality of mukhtars and tribal leaders on 3.1.1942. The Director of Land Settlement wrote to Acting District Commissioner to the effect that nothing can be done until the final form of the village administration Ordinance is decided upon and the powers conferred under the Ordinance are extended to the Wadi Hawarith Arabs. The matter does not appear to have progressed any further.							Chairman <u>(Sgd.) E. R. Pines</u> Asst. District Commissioner, Tulkarm. Member: <u>(Sgd.) M. C. The ownership of these parcels was confirmed by Settlement Officer in cases 3, 4 and 6 of Wadi Hawarith. These lands are known as el Kurdiyat originally recorded under D/Tul/30 and 31, and are now occupied by Arab Wadi Hawarith South. It was agreed that a lease be given for 49 years to the occupants on the basis of 20% of the yield crop as rent. The District Commissioner found this percentage too high and could not be collected except by force. However, in view of the difficulty in drawing up an agreement with each member of the tribe and as the mukhtar is not a juridic person having power to sign a lease for 49 years on behalf of the members of tribe which lease must be registered in the Land Registry, it was agreed to draw a lease for three years which could be signed by the Mukhtar on behalf of the member of the tribe (such lease not being registered). 114 metres jetty was constructed on this parcel in 1939, without Government authority, by the Jewish National Fund for the purpose of landing manure. The Jewish National Fund later applied for a lease of 12 dunums near the jetty but submitted no plan to show what constructions are intended to be made on these 12 dunums. The Director of Land Settlement reported the case to the Chief Secretary and requested for authority to draw up a licence with Jewish National Fund. Chief Secretary refused directing that the licence should be drawn up at the same time when a lease is made for the 12 dunums and that the Jewish National Fund should be considered as encroachers on Government land and should be asked to remove the jetty and that the lease of 12 dunums will be considered when they had submitted a scheme to show how these 12 dunums are to be developed. Following exchange of correspondence between Chief Secretary, District Commissioner, Director of Land Settlement and Jewish National Fund, and since the jetty had already cost £P.3000 it was thought advisable to grant a licence for one year for the jetty and a licence was accordingly granted for one year at a nominal fee of £P.1 per annum. This parcel was adjudicated to Government in case 120/Qaqun. A certain Wasfi Hamad petitioned the Director of Land Settlement for the grant of the parcel to him on payment of Badl Misl. He stated that the parcel forms part of this adjacent land and that he has been in possession of it for the last fifty years. He was the defendant in the case, the Ma'mur 'Awqaf, the plaintiff and Government the third party.

UNOCCUPIED STATE DOMAIN IN "SETTLED" AREAS

Village : QaqunSub-District : Tulkarm

State Domain No.	Book No.	Folio No.	Block No.	Parcel No.	Area Duns.Sq.m.	Category and Description	Recommendations of State Domain Inspection Committee
GP/5/29(4)	140	36	7998	10	393.731	Hiri (dry Marsh).	
This parcel was adjudicated to Government in case 92/Qaqun. It was composed at time of settlement (and in the case) of the following parcels P.P. No. 2a, 3a, 4a, 5a, 10, 13, 15, 19 Part of 22a and 28. All these parcels with the exception of 10 were disputed by individuals. The Settlement Officer found that these lands were marshy not improved by any of the defendants in the case. The Defendants later applied to Assistant District Commissioner for the grant of the land to them on payment of Badl Misl. They stated that the land was originally waste and that they have improved it and expended a large sum of money in the process adding that they have been in possession of the land for the last 20 years. The Assistant District Commissioner forwarded the application to Director of Land Settlement who marked it for consideration by the State Domain Committee in due course. Meanwhile the Kibutz Ein Hahoresk Settlement applied for the lease of the land. It was decided to let the property for agricultural purposes for a short term and a notice to this effect was published. The highest bid was made by a certain Madhat Abu Hantash of Qaqun village who was one of the defendants in the case. The bid was £P.80 per annum for the whole parcel and was accepted. The bidder Madhat Abu Hantash, subsequently applied for a three years lease at the same terms and this was for certain reason agreed to. The lessee knew of the existing encroachments made by the defendants in the settlement case and by others and was allowed to sublet parts of the land to the present occupants.							This parcel has now been leased until the 30th of June, 1945. 2. An application was received from MMX the Forestry Department for the use of this land as a eucalyptus plantation. It is recommended that this application should be reviewed before the expiration of the existing lease. Chairman <u>(Sgd.) E. R. Pears</u> Asst. District Commissioner, Tulkarm. Member: <u>(Sgd.) M.
